

Challagatta govt HPS school Bangalore south is now transformed with new look by Embassy group under CSR Activity ;

Embassy group Writes

This is a project that we undertook yesterday at a govt school just behind embassy golf links along with and NGO called the ugly Indian (the ngo that has been quietly transforming black spots around the city) and 45 employees of a company called wework who are our tenants..

The public garbage was relocated; the water connection to 4 bathrooms were restored; sewerage lines were blocked and the entrance wall was damaged too. It was a two week long project just to shift the garbage dump and get BWSSB on board.
