It has been brought to our notice by some of the prospective bidders that the tender conditions permit them to bid for quantity less than total requirement of the department subject to the condition that the quantity quoted by any bidders is not less than 75,000 and not more than 25% of the bidder's installed capacity. However, the e-procurement portal through which bid has to be quoted by bidders, automatically takes the total quantity and does not provide option to enter the quantity of the bid. This issue has been examined by the department and it is clarified that the quantity displayed in the e-procurement portal "financial bid details" window where the bidders enter price of the unit and the system takes full quantity automatically is only indicative and will be ignored. The quantity and the price quoted in the Annexure-"E" which is to be uploaded by each bidder along with their financial bid document, will only be taken into consideration for calculating the quantity quoted and price of each unit and the total bid value. The financial bid evaluation will be done on the basis of annexure-"E" only and not based on the entries in the "Financial bid details window" entries of the portal. This would enable any bidder to enter the quantity they want to bid depending on their installed capacity subject to minimum quantity of 75,000.
